

**TABLE 1****Rate of formation and average life span of autophagosomes under different growth conditions**

The abbreviations used are as follows: aut, autophagosomes; con, control; st, starvation; noc, nocodazole.

Treatment	Aut/cell at steady state	Formation rate	Life span
		<i>aut/min</i>	<i>min</i>
Con	9.8 ± 3.2	0.30	32.3
Con + noc	8.1 ± 3.3	0.26	31.6
st	28.5 ± 3.5 <sup>a</sup>	0.82	34.8
st + noc	21.6 ± 5.8 <sup>a</sup>	0.66	32.8

<sup>a</sup> $p < 0.005$ .
