a Only PopPK data from journal publications are reported here, since, in most instances, meeting abstracts did not provide sufficient information on model parameters or model structure. If those data are not available, pharmacokinetic parameters from the SPC or prescribing information are reported.

b  $V_{ss}$ .

c For a person weighing 70 kg.

d Vitreous  $t_{1/2}$ .

e Reported as the initial and final  $t_{1/2}$  within a dosing interval.
