

G1 daughter	126±4 (90)
Budded period daughter	106±2 (54)
G1 mother	33±1 (118)
Budded period mother	101±2 (83)
Total cycle daughter	219±3 (54)
Total cycle mother	133±2 (84)

Table S6. Average duration of cell cycle periods for wt haploid cells grown in glycerol/ethanol. The table shows the mean +/- standard error of the mean in minutes with the number of observations reported in parenthesis.
