

**Table 2** Divergent time of each clade estimated based on two mutation rates

Clade 1	Clade 2	Time of divergence mutation rate: 3.8 and 5.4 % per Myr	
		3.8 % per Myr	5.4 % per Myr
SC	HL	2.646 [2.0685, 3.2495]	1.864 [1.4815, 2.3038]
ND	SC + HL	3.631 [2.7773, 4.4975]	2.553 [1.9794, 3.1708]
KD3	HL	0.896 [0.453, 1.3727]	0.63 [0.3184, 0.9606]

Values in brackets represent 95 % confidence intervals for divergence times
