

Table 2. The subunits of bovine F_1 -ATPase.

| Subunit | M_r ^[a] | Function |
|------------|----------------------|------------------------|
| α | 55247 | nucleotide binding |
| β | 51705 | nucleotides, catalysis |
| γ | 30141 | link to F_0 |
| δ | 15065 | stalk |
| ϵ | 5632 | stalk |

[a] The relative molecular mass of the total complex $\alpha_3\beta_3\gamma\delta\epsilon$ is 371694.
